

Sustainability is inevitable for a green future. And careers in this field are booming with a growing need for new talent... Professionals with training in sustainable environment management would be required in public/ private sector for environmental planning, environmental status evaluation, environmental legislation with focus on implementation, monitoring and auditing practices.

M. Sc. Sustainable Development and Environment Management (SDEM) is a multidisciplinary job oriented course which addresses these requirements. It equips individuals to solve problems in these fields at source rather than at the end - of - pipe interventions.

Eligibility: B. Sc. / B.E. degree or equivalent

Duration: Two year- Full Time
